

Deep Hole In A Street

KER-PLUNK: Isaac Raymond of Colony Maintenance drops a stone into a long-forgotten well uncovered in a Lago Colony street.

BURACO HUNDO: Isaac Raymond di Colony Maintenance ta tira un piedra den un poz luhidá desde hopi tempo cu a worde descubri den un caya di Lago Colony.

When the road repair crew scraped off the surface of the "700-row" in Lago Colony last month before paving it, they uncovered a little bit of Lago's ancient history.

With a heavy jolt the scraper hooked on to something where nothing should have been, and jerked to a stop. Some digging with shovels soon revealed a huge concrete cap ten or twelve feet across and four inches thick. It was about half in the street and half in the back yard of a bungalow. Scraping at the edge showed that it covered a huge deep hole.

Forgotten for nearly 15 years, since it was capped when the surrounding bungalows were built, it turned out to be one of the wells that supplied Lago with water in the mid-Twenties. Originally dug by the earlier phosphate mining company, some of these wells were put into service with a line of windmills. Old-timers will remember these as being very far away across a wide-open stretch of "prairie" from the then-small Colony.

The well accidentally opened last month was over 30 feet deep, and had seven feet of water in it. After all the years it will again prove useful; the area where it is has always been troublesome for poor drainage during rainy periods, and a grating over the well will now help to drain off excess water.

Ora un grupo di reparacion di camina tahata raspa e superficie di caya 700 den Lago Colony luna pasá promer cu pone su empavamiento, nan a descubri algo di historia antiguo di Lago.

Cu un golpe regular e scraper a pega ariba algo cu no mester tahata tey, y a para cu algun sacudida. Despues di algun cohamento cu shovél pronto nan a descubri un capa grandi di concreto diez di diez-dos pia largo y cuatro duim diki. E tahata mas of menos mitar den e camina y mitar den cura patras di un hungalow. Kitamento di terra na e randnan a indica cu e tabata cubri un buraco grandi y hundo.

Luhidá pa casi 15 anja, desde cu el a worde tapá na tempo cu e casnan den vecindario a worde trahá, el a resulta di ta un di e poznan cu tabata produci awa pa Lago mas of menos banda di anja 1925. Originalmente cobá door di e compania di mina di fosfaat cu tahata aki promer, algun di e poznan a worde poní na servicio cu un grupo di molina. Veteranonan lo recorda nan na un distancia basta leu di Colony chikito di antes tras di un terreno habri, mescos cu un "prairie."

E poz cu a worde habri accidentalmente luna pasá tabata mas cu 30 pia hundo, y tahatin siete pia di awa aden. Despues di tur e anjanan e lo proba di ta util atrobe; e vecindario unda e ta, semper tahatin dificultad.

Aprendiznan ta Bolbe Despues Di un Anja di Estudio

Dos aprendiz ganador di "scholarship" a regresa na Lago recientemente despues di un anja di entrenamiento den Estados Unidos y a ocupa nan lugar den refineria equipá cu beneficianan di educacion adicional. E dos mucha hombernan di 19 anja, Raymundo Farro y Juan Yarzagaray, a yega na vliegvelld Dakota dia 23 di Juni unda nan a worde encontrá door di nan familia, amigonan y miembronan di facultad di School di Ofishi di Lago.

E dos jovennan a distingui nan mes na Allentown, Philadelphia tanto academico como socialmente. Di mayor importancia, ambos joven a completa nan anja di estudio cu puntanan ariba noventa por ciento.

Raymundo tahata ariba e lista di honor di high school durante henter anja mientras Juan tahata ariba e lista durante ultimo parti di e anja escolar. E mucha hombernan a ohtene nan rango halto mientras nan tahata studia den ramonan manera Ingles, historia mundial, physica, economia y algebra. No solamente e dos jovennan Arubano tabata consciencioso den school regular, loke a worde probá door di nan puntanan halto, pero tambe nan a haci estudio adicional na school di anochi. Estudio di anochi extra di Raymundo tabata inclui fotografia y papiamento na publico. Juan a studia trabao di arte na school di anochi.

Curso di Estudio

Curso di estudio sigui door di e muchanan tabata planeá asina pa asisti nan mehor na nan trabao. E estudionan tabata un continuacion di e cuatro anja di entrenamiento cu nan a recibí na School di Ofishi di Lago. E lesnan cu e muchanan a atende tahata na diferente grado di e school.

C & L E Tie Results In DR Elections

Thirty seven men were elected District Representatives while two men tied for the one position in Catalytic and Light Ends in the recent elections held June 25, 26, and 27. H. L. H. Engelen and George Lawrence drew the same number of votes in District 15 (C & LE). A bye-election will be held in District 15 on July 3 and 4. The winner of the tie will make up the total of 38 men representing 33 districts. The elected District Representatives follow:

District 1 (Yard), Vicente Kelly and Octavio E. Carty; District 2 (Pipe), Dominic Maduro and F. V. Barenó; District 3 (Masons and Insulators), W. E. Walcott; District 4 (Metal Trades), Marco Angela; District 5 (Garage and Transportation), Erick A. Carti and C. A. Thompson; District 6 (Carpenter and Paint), L. B. Olive and Luis Kock; District 7 (Electrical), Guillermo Giel; District 8 (Machine and Foundry), W. H. Eastman; District 9 (Colony Maintenance); D. E. Marcelle; District 10 (Instrument), Wilton Wilson; District 11 (M&C Administration), J. A. Butts; District 12 (Storehouse), Basil Medina; District 13 (Utilities), Alfred Bishop; District 14 (Cracking), H. E. Johnson; District 16 (Acid and Edeleanu), A. de Robles; District 17 (Light Oils Finishing), Julio Boom; District 18 (Lago Police), F. E. Romney.

District 19 (Receiving and Shipping), V. A. Frederick; District 20 (Dining Halls), H. A. Bristol; District 21 (Colony Operation and Administration), G. J. Tjon-A-Tsien; District 22 (Laundry), Alwyn Charles; District 23 (Stewards), J. E. Romney; District 24 (Clubs), F. O. Thompson; District 25 (Commissaries), B. Luydens; District 26 (TSD Lab. Div.), F. E. Acosta; District 27 (TSD-Eng. and Process Div.), E. Fung-A-Fat; District 28 (Marine Office), N. P. Dabreo; District 29

Fleet Agreement Signed

FIRST SIGNING: D. L. VAN Putten, Lake Tankermen's Council president, and Capt. W. L. Thomas and A. McKenzie, assistant Marine Managers, left to right, affix their signatures to an agreement covering working conditions. Standing by at the eventful occasion are the tanker-men's representatives and representatives of Management.

PROMER FIRMAMENTO: D. L. Van Putten, presidente di Lake Tankermen's Council y Capt. W. L. Thomas y A. McKenzie, Asistentenan di Gerente di Marina, di robez pa drechi, ta pone nan firma hao di un comhenio cubriendo condicidoman di trahao. Pará un banda na e ocasion memorable ta representantenan di personal di tanqueronan y representantenan di Directiva.

(Launches), R. N. Croes; District 30 (Ship Repair Yard), B. de Kort and A. Tearr; District 31 (Accounting and Executive), S. Malmberg; District 32 (Industrial Relations and Public Relations), C. I. Tromp, and District 33 (Medical), B. Jones.

Lake Tankerman Sign Agreement Covering Working Conditions

On Thursday, June 19, members of the Lake Tankermen's Committee and Council and Marine Department Management joined in the signing of an agreement which had been requested by the Committee at its last joint meeting with Management. The signing took place in the Marine Annex.

The agreement covering wages, hours, and working conditions of the non-officer personnel of the Lake Fleet was signed by the ship's representatives, by Council members D. L. Van Putten, Noel Sampson, L. E. Marchean, Vincent R. Pataca, and Jonnas Joseph on behalf of the unlicensed personnel of the Lake Fleet, and by D. J. Garden, W. L. Thomas E. J. Robertson, L. C. Nelson, and A. McKenzie, Management representatives.

That evening, a banquet celebrating the signing was held at the Marchena Hotel in San Nicholas. The 40 in attendance heard short addresses by J. Andrea, Marine Manager; Mr. Van Putten and Mr. Sampson, Lake Tankermen's Council president and secretary, respectively, and Capt. Thomas and Mr. McKenzie, assistant Marine Managers. Capt. John MacLean served as toastmaster.

In speaking to the group, Mr. Andrea stated that he was pleased to have the agreement. "It is something that will not change conditions, but will solidify them. The agreement is an expression of good will on both sides," he said. Mr. Van Putten expressed himself saying that the men have been working for this day for a long time. He heralded the working agreement as a mutual accomplishment.

The Lake Tankermen's Council is made up of five men. These men are elected by the Lake Tankermen's Committee of 22 representatives out of their own number. Each ship in the Lake Fleet has a representative. Marine Management meets with the

Fls. 6230 Awarded 120 CYI Winners For April

One hundred and twenty Lagoites joined the list of CYI winners for suggestions accepted during the month of April. Heading the long list of winners was H. De Robles whose suggestion to have spare suction strainers for No. 2 tar pump on hand at unit drew top money of Fls. 400. The next big money winner was R. MacMillan who received a supplemental award of Fls. 350 for his suggestion to mount portable welding stands on pallets. H. J. Mills was the third man on the winners' list with an award of Fls. 300.

One Fls. 250 and two Fls. 200 awards were next. They went to J. Artsen, Bertie L. Viapree, and A. Simon, respectively. Two men more than proved their alertness to Company improvement by having three of their suggestions accepted. P. G. Hodgson received an award of Fls. 150 and two commendations. M. St. Paul received two Fls. 25 and one Fls. 20 for three ideas that he coined.

In addition, the breakdown of awards showed one Fls. 175, one Fls. 150, one Fls. 120, one Fls. 100, eight Fls. 75, one Fls. 60, nine Fls. 50, seven Fls. 40, 10 Fls. 35, 21 Fls. 30, 23 Fls. 25, 24 Fls. 20, and three commendations.

Fls 175
A. Branigan - Make and install one new oil receiver and drainer - Garage.

Fls 150
Cecil Bristol - Install electric starting group on welders - E-71 & E-72.

Fls 120
W. O. Weber - Relocate exhaust temperature thermocouples - No. 2 Alky Plant.

Fls 100
Willard Strode - Stock red cedar shingles for shimming jambs.
J. M. J. Wagemaker - Walls between bath rooms & kitchens to be constructed of 2" x 6" creasoted studs and steel-tex instead of blocks.

J. Freundel - Provide covered storage space to Colony Maint. sand boxes.
J. H. Reeberg - Lower order points on brake shoe & lining- increase order point on kit, brake lining.
R. A. Spellmann - Alphabetical listing in colony directory to include inhabitants of C.P.A. & Seaview Apartments.

Fls 75
Marino Kemp - Provide Thrift Plan clerk at gate with P.R. Nos. of employees not entitled to apply for loans.

Rudy Janecck - Build ramp on one side of Commissary entrance.
William Rafloski - Use portable hydraulic coupling puller.

P. E. Jensen - Use plastic housing in primary electric power circuit - Colony electric system.

Paul M. Walker - Purchase and use protractor welding clamp.
A. T. Willis - Return worn out batteries to U.S. or offer to local merchants.

M. Smit - Tie central pumphouse E.G.B. knockout drum pump discharge into 6" return.

C. K. Jardine - Install 1" block valves at take off from low pressure suction, discharge, and high pressure suction compressors - GAR no. 1.

Sistema di Representacion Di Clase ta Word e Usa Door di School di Ofishi

Estudiantenan di School di Ofishi di Lago awor tin representantenan di cada uno di nan grupo segun un organizacion nobo formá operando pa di promer anja.

Tin cuater grupo den clasenan di segundo y tercer anja y cada grupo ta eligi un representante. Muchanan den ultimo anja no ta word e representá como mayoria di nan tempo ta dedica na entrenamiento practico na trabao den refineria. Muchanan di promer anja ta obtene representacion na fin di promer anja ora ta word e sinti cu nan tin mehor comprensión di e rutina di school y responsabilidad pa tene un posicion como representante di clase.

E programa a word e desaroyá na September 1951, y ta progresando rapidamente den su segundo anja. E motibo principal pa desaroyo di un representacion asina tabata pa forma un bon linea di comunicacion entre estudiantenan y administracion di school. Entre e programanan desaroyá door di e representantenan ta e varios sesionnan di merdia. E representantenan a establece y ta responsable pa e checkers, domino, y otro torneonan similar cu ta word e teni tur merdia.

E representantenan tambe ta formulando plannan pa un museo, y cultivacion di matanan nativo. Provisionalmente, e museo di muestra di mata local, casco, mineral y cosnan similar cu por ilustra un poco di historia di e isla.

Na ocasionnan reciente, e representantenan a actua como guia di bishitantenan di e edificacion di entrenamiento. E representantenan a asisti den munstramento di nan school y su facilidadnan na Lago Employee Council durante nan bishita reciente na refineria. Walter Arnold, un representante di Standard-Vacuum, a word e escortá door di Vocational Training School door di miembronan di e cuerpo representativo.

E grupa ta tene reunion dos vez pa luna ademas di sesionnan ora ta necesario. Actualmente e representantenan di clase no tin oficialnan pa motibo di e novedad di e organizacion. Ta word e sperá cu oficialnan lo word e elgi otro anja.

Miembronan di e cuerpo representativo ta Edgar Coffi, William Menfors, Francisco Jacobs, Rafael Hodge, Leonard Peterson, Raymond Peterson, Nicholas Jacobs, y Leon Vrolijk. William Meskill ta advisor

Apprentice Trainees Return Home

FAMILY GREETINGS: When the two apprentice boys arrived at Dakota Airport after a year's study in the United States, they were met by their families. Juan Yarzagaray's family greets him, left, and Raymundo Farro's youthful family admirers exhibited joy in his return, right.

CUMINDAMENTO DI FAMILIA: Ora e dos aprendiznan a yega na vliegveld Dakota, nan a word e encontrá door di nan familiaran. E familia di Juan Yarzagaray ta cuninde'le, na banda robz, y familia juven di Raymundo Farro ta munstra nan felicidad, na banda drechi.

Scholarship Winners Return After Year's Study in US

Two apprentice scholarship winners returned to Lago recently after a year's training in the United States and have taken their place in the refinery equipped with the benefits of additional education. The two-19-year-old youths, Raymundo Farro and Juan Yarzagaray, arrived at Dakota Airport June 23 where they were met by their families and friends and members of the Lago Vocational Training School faculty.

The two young men distinguished themselves at the Allentown (Pa.) High School both academically and socially. Of primary importance, both boys completed their year's study with marks that ranked in the upper 10 per cent of their class. Raymundo was on the high school honor roll for the entire year while Juan was on the honor list the last half of the school year. The boys attained their honor ranking while studying such courses as English, world history, physics, economics, and algebra. Not only were the two Aruban youths conscientious during the regular school, proven by their high grades, but they also did additional studying at night school. Raymundo's extra night studies were in photography and public speaking. Juan studied art work in his night classes.

The course of study followed by the boys was geared so as to best assist them on the job. The studies were a continuation of the four year's training they received at the Lago Vocational Training School. The classes the boys attended were at different grade levels in the school. Intermingled in their work were classes with students of 11th and 12th grade levels.

Socially, Raymundo and Juan joined in the many school activities. Raymundo and Juan belonged to the Physical Science Club and the Engineer's Club, of which Raymundo was vice-president. Both boys also belonged to the YMCA where they took part in many athletic and social activities. Besides participation in athletics, they attended the school's varsity football and basketball games.

Juan and Raymundo were most enthusiastic about the friendliness of the people in Allentown. Raymundo stated that it was a very nice place to live. While the boys were studying there, they lived with Mr. and Mrs. Donald Wilkinson, the family that houses all Lago scholarship winners while in Allentown.

The stay in the United States was not strictly confined to Allentown. The two Arubans traveled west to Pittsburgh where they visited steel mills and the large Westinghouse plant. Northward, Raymundo and Juan traveled into the New England states. New York, Washington, and Philadelphia were a few of the big eastern cities visited. Points of interest along their tours were the Smithsonian Institute, Franklin Institute, Museum of Natural History in New York, the Empire State Building, and the Polo Grounds, home of the New York Giants.

The bigness of everything and the

Aprendiznan ta Bolbe

(Continued from page 1)
Entre nan trabao tabatin lesnan huntu cu estudiantenan di grado 11 y 12.
Socialmente, Raymundo y Juan a participa den e hopi actividadnan di school. Raymundo y Juan tabata pertenece na Physical Science Club y Engineer's Club, di cual Raymundo tabata vice-presidente. Nan tabata miembro tambe di YMCA unda nan e tuma parti den cantidad di eventmentonan social y atletico. Ademas di participacion den atletismo, nan a tuma parti den serie di weganan di futbol y baseball di e school.

Hende Complaciente

Juan y Raymundo tabata mas entusiastico tocante amistosidad di hendenan na Allentown. Raymundo a bisa cu esaki tabata un masha bon lugar pa biha. Mientras e muchanan tabata studia aki, nan a keda cerca Sr. y Sra. Donald Wilkinson, e familia cerca kende tur studiantenan di Lago ta keda durante tempo cu nan ta na Allentown.

E tempo cu nan a pasa den Estados Unidos no tabata strictamente limitá na Allentown solamente. E dos Arubanonan a viaja pa west pa Pittsburgh unda nan a bishita fabricanan di staal y e planta grandi di Westinghouse. Den norte, Raymundo y Juan a viaja den estadonan di New England. New York, Washington, y Philadelphia ta algun di e ciudadnan grandi di parti oriental cu nan a bishita. Puntonan di interes banda di nan ruta tabata Smithsonian Institute, Franklin Institute, Museum of Natural History na New York, Empire State Building, y Polo Grounds, cas di New York Giants.

Grandura di tur cos y e variedad di diversionnan, viajamento y vida en general a impresiona e dos studiantenan mas hopi. Experiencia mas memorabile di Juan tabata e bista ariba ensena di New York for di ariba Empire State Building. Raymundo tabata bao impresion di grandura di Polo Grounds.

E muchanan a corre den trein for di Allentown te Miami ariba nan viaje di vuelta pa cas. Nan unico comentario tocante viajamento den trein ta cu nan no a gusto'le asina tanto manera bulamento den aeroplano. Juan y Raymundo a sali for di Aruba dia 31 di Augustus, 1951, pa tuma nan entrenamiento cu tur gastonan pagá. Despues di nan vuelta, nan a bishita School di Ofishi di Lago y a conta e otro studiantenan tocante nan experiencianan.

Actualmente, Raymundo ta traha den Process Design di TSD y Juan ta traha den Cracking.

Annuitant Reports

Ed Harris, who retired from L.O.F. on March 1, reports enjoying his retirement in Corpus Christie, Texas (4035 Vanderbilt Drive). The climate, he says, has been good (as if any Texan would say anything else) - not cold in the winter, just cool for three or four days at a time, and a cool breeze off the bay in summer, at least up to June 13 which is as far as his experience goes.

Banquet Following Marine Signing

Diahuebes, 19 di Juni, miembronan di Lake Tankermen's Committee y Council y Directiva di Marine Department juntamente a firma un combenio manera a worde suplica door di e Comité durante su ultimo reunion conjunto cu Directiva. E firmamento a tuma lugar den Marine Annex.

E combenio cubriendo sueldonan, ora y condicionnan di trabao di personal non-oficial di Lake Fleet a worde firmá door di representante di baponan, door di miembronan di Council D. L. Van Putten, Noel Sampson, L. E. Marchena, Vincent R. Pataca, y Jonnas Joseph na nomber di personal sin licencia di Lake Fleet, y door di D. J. Garden, W. L. Thomas, E. J. Robertson, L. C. Nelson, y A. McKenzie, Representantenan di Directiva.

E anochi, un banquete en celebracion di e firmamento a worde teni den Marchena Hotel na San Nicholas. E 40 persona cu tabata presente na e banquete a tende discursonan cortico door di J. Andreae, Marine Ma-

nager; Sr. Van Putten y Sr. Sampson, respectivamente presidente y secretario di Lake Tankermen's Council, y Capt. Thomas y Sr. McKenzie, Assistant Marine Managers. Capt. John McLean a sirbi como "toastmaster."

Discursonan

Papiando cu e grupo, Sr. Andreae a bisa cu el tabata masha contento cu e combenio. "E ta algo cu lo no cambia condicionnan, pero cu lo baci nan mas solido. E combenio ta un expresion di buena voluntad di ambos banda", el a bisa. Sr. Van Putten a expresa su mes diciendo cu e hombernan a traha hopi tempo pa alcanza e fecha aki. El a yama e combenio di trabao un acozamiento mutuo.

Lake Tankermen's Council ta consisti di cinco miembro. E hombernan aki ta eligi door di Lake Tankermen's Committee di 22 representantenan for di entre nan mes miembronan. Cada bapor di Lake Fleet tin un representante. Directiva di Marine Department ta tene reunion cu e Comité cada dos luna y cu Council segun ta necesario.

Promer cu representantenan di personal di tanqueronan a firma e combenio, nan a recibi un referendum for di personal di flota autorizando nan pa adopta e constitucion y statutos di Council y drenta den un combenio cu Directiva. E referendum tabata firmá door di un mayoria dominante di e hendenan.

TANKERMEN'S BANQUET: Following the signing of an agreement covering working conditions in the Lake Fleet, Management and Committee representatives joined in a banquet at the Marchena Hotel. J. Andre, Marine Manager, addressed the group, top, as did D. L. Van Putten, Lake Tankermen's Council president, center. The banquet group of 40 is shown at the bottom.

BANQUETE DI MARINERONAN: Despues di firmamento di un combenio cubriendo di trabao den Lake Fleet, representantenan di Directiva y e Comité a participa den un banquete na Marchena Hotel. J. Andreae, Gerente di Marina, a adresa e grupo, ariba, mesos cu D. L. Van Putten, presidente di Lake Tankermen's Council, den centro. E grupo di 40 persona cu a tuma parti na e banquete ta worde muntrá mas abao.

Aruba Baseball League Underway

San Lucas and Amstel played the first game in the opening of the Aruba Baseball League at Wilhelmina Stadium Sunday, June 29. The league, made up of nine teams, is being conducted by the Amateur Baseball Bond of Aruba.

Prior to Sunday's opener, the nine teams participating in the league in addition to the two engaged in the first game are Nesbitt, Dodgers, La Esfera, Baby Ruth, Heinckes, La Salle, and woolsey Pink.

Four other teams of the league will swing into action on July 6. At 10:15 p.m. at Wilhelmina Stadium, La Salle will play the Dodgers. That afternoon at 2:30 in the Stadium, woolsey Pink and La Esfera will play.

TEN YEARS AGO

One of the highlights of Lago activity 10 years ago was the visit of Admiral J. B. Oldendorf, Commander All Forces, Aruba-Curaçao. Admiral Oldendorf, accompanied by his aide, Commander F. I. Shaw, toured the refinery. Following his tour, he delivered an address on the importance of the Aruba Refinery to the United Nation's war effort. The Admiral was introduced before his speech by L. G. Smith, former Lago president and general manager.

Vacationists returning in June, 1942, included the names of Mr. and Mrs. Frank Gomes of Lago Heights. Frank and his wife visited Trinidad. The Aruba Esso News carried a story of Frank's trip and also a picture that was taken of him and his family while in Trinidad.

In the sport's world, it was announced in June, 1942, that the

Aruba Football Association Challenge Shield, presented by the late Captain Rodger for permanent competition, was returned to active competition.

Lago Sport Pink Football activity got going this time 10 years ago with an exciting game between the San Nicholas Juniors and the Unidos. The Juniors won the opening contest 2-0.

Lake Tankermen

(Continued from page 1)

Committee once every two months and with the Council as necessary.

Before the tankermen's representatives signed the agreement, they received a referendum from the men of the fleet authorizing them to adopt the constitution and by-laws of the Council and enter into an agreement with the Company. The referendum was signed by an overwhelming majority of the men.

Animal Hostel Established At Dakota by Aruba APCA

Association Aims To Provide Care For Neglected Animals

For some time now, Aruba has had its own Association for the Prevention of Cruelty to Animals. It is an association dedicated to the task of providing humane care for neglected animals roaming aimlessly through the streets of Aruba. Among other functions, the Association has also set up a service whereby it assists animal owners in taking care of their pets. In order to better provide these services and fulfill its desires, the Association recently announced the opening of an animal hostel at Dakota.

The Association has acquired a substantial number of members and supporters within a relatively short time. The beginning was difficult as often is the case in the formation of new organizations. The Association's board members, however, arranged a large number of meetings and worked diligently toward the formation of a location where homeless animals could receive care.

Association's Objective

No sick and neglected animals in our streets; no undesirable animals left behind anywhere. In short, no unnecessary cruelty to defenseless animals.

Little was known of the Association until the announcement was made May 3 that the animal hostel was open. Previously, the public had little knowledge of the Association's activities. Now, however, more and more people know of the AAPCA's hostel, and, although moderate in size, it has more than proven its value in the short time since its inception.

The humane functions of the Association through its hostel are many. When an owner permanently leaves the island; when an owner no longer has the time or space for his animals; or when a litter is born and the owner does not desire to keep all the young ones, the Association and hostel will take over. The animals will be taken to the hostel, cared for, and a home found for them. These are only a few of the many Association activities.

When an animal is sick and the owner is convinced that it cannot be cured, he can give the animal to the hostel. In short, anyone who wants to be rid of an animal can give it to the Association. The Association will attempt to find a solution for anybody's animal problem. If it is a hopeless case, the animal will be re-

FRIENDS IN NEED: Guenther E. Bosser, who tends the animals at the Dakota hostel, playfully fondles some of the little fellows whom care is being given at the shelter. Mr. Bosser gives the animals care and kindness which they wouldn't have received if they continued to roam the streets and the countryside.

AMIGONAN DEN NECESIDAD: Guenther E. Bosser ta cura pa e bestianan den asylo na Dakota, ta hunga cu algun di e bestianan chikito cu ta haya cuida den asylo. Sr. Bosser ta cura pa nan haya cuida y cariño loke nan lo no a recibi si nan a sigui camina rond den caya y camuecanan.

lieved of its suffering in an expert and humane manner. The hostel offers other services to animal owners. It often happens that an owner of a dog does not want to clean the animal regularly, particularly when it is troubled by so-called ticks. Arrangements for this problem can be made. Owners who would like to have their dogs cleaned can deliver the animals to the hostel on Saturday or Sunday. They will be washed, if desired, and then freed from ticks, treated with disinfectant and subsequently rubbed with insect powder.

Costs

The costs of maintaining such a hostel are relatively high. The Association has therefore requested those who want the assistance of the hostel to contribute to the cost of its operation. Such contributions, however, are not beyond reason. For example, the charge for destroying a full-grown dog is Fls. 1, for a litter, (Continued on page 5)

WANDERERS' HOME: The Aruba Association for the Prevention of Cruelty to Animals recently opened a hostel to care for homeless and neglected animals. Pictured is a section of the kennels where the animals are lodged while they are treated for sicknesses or injuries and until homes are found for them.

CAS PA BESTIA: Asociacion Arubano pa Prevencion di Crueldad na Animal a habri un asylo recientemente pa duna cuida pa bestianan neglighá y di caya. Ariba e retrato ta un seccion di e casnan di cachu unda e bestianan ta keda y ta haya tratamento pa enfermedad di herida te ora nan haya un cas.

Methodist Missionary Sale

CHURCH SOIREE: The Christ Methodist Church of San Nicholas held a soiree June 2 for the benefit of the church's missionary work. Many items, which were all donated, were sold by different groups of the church. Shown is a group of people keenly intent in what was offered by the British Guiana section. Games were also played and refreshments served.

SOIREE PA MISA: Iglesia Metodista di Christo na San Nicolas a tene un soiree dia 2 di Juni na beneficio di trahac misionero di e iglesia. Munstrá aki ta un grupo di hende aparentemente masha interesá den loke e seccion di British Guiana tin di ofrece. Tambe tabatin hopi wegá y refresco.

Selective Service Registration Announced By American Consulate

The American Consulate announced recently that in accordance with the Presidential Proclamation of April 17, 1952, registrations for selective service of certain Americans abroad will take place during July of this year at all American foreign service posts.

Male American citizens born on or after August 1, 1926, but not after July 31, 1934, are required to register. In Aruba, registration will take place at the American Consulate in San Nicholas. Persons within the prescribed age bracket who have reserve status of any type must register unless on active duty. Persons currently registered elsewhere are not required to register.

For all persons affected, registration must be completed by July 31. There will be a subsequent continuing registration of persons at the Consulate as they attain their 18th birthdays such action being necessary within five days after the birthday.

The Consulate suggests that persons registering appear at the Consulate during the middle two weeks of July.

CYI Winners

(Continued from page 2)

Fls 60
C. Drake - Install hand conduit bending machine on pallet.

Fls 50
Thomas P. Viapree - "Job number booklets" to be issued to various zone offices.

Manoel J. Nunes - Standardize type of toilet tissue used.

Carl W. Lejuez - Install hill-type safety shower north of pump no. 1241 - Catalytic Department.

Thomas P. Viapree - Change filing system in all zone offices - use one file only.

Leo Stuart - Permit Colony postmaster to authorize truck pass for mail pickup.

A. B. Helliger - Use portable tool box for crane and heavy equipment work in field.

L. L. McGrew - Make alterations to existing std. pipe saddles to reduce unnecessary replacements.

A. Branigan - Indicator for vehicles - grease rack.

A. E. Krottnauer - Purchase and use "spare" control valve to replace tar control valve during normal inspection - Units no. 1 - no. 8.

Fls 40

The following men received Fls. 40 for their suggestions: H. J. Dijk, J. J. R. Beujson, Anselmo Semeleer, Matias Wouters, C. Drake, J. Gabriel, and J. L. Bacchus.

Fls 35

Fls 35 went to H. T. Stroude, D. Charles, M. D. Richardson, P. G. Brook, C. K. Jardine, J. Donohue, H. L. Cox, Rueben B. Bellas, S. Brathwaite, and F. P. Nunes.

Fls 30

For their accepted ideas, the following received Fls 30: J. Donohue, E. I. Wong, D. G. Richards, J. B. Ruiz, M. Reyes, D. R. Christians, R. Thompson, P. Rodrigues, L. Peterson, J. Noel, F. Paris, M. I. Lake, H. P. Smith, F. B. Strijdhafsig, G. B. Francis, W. Lampe, H. McGibbon, B. Games, H. V. Tromp, and C. V. Watkins.

Fls 25

Adding to the long list of CYI winners were the following Fls 25 recipients: S. B. Green, A. E. Krottnauer, J. Annamunthoda, G. A. Scott, T. O. Lucas, N. Kock, L. Gayle, M. A. T. Willis, M. A. Davidson, J. M. Balgon, J. Annamunthoda, T. McDavid, O. Carty, J. Jansen, J. A. Royer, H. C. Grant, J. Gumbs, E. S. Stanley, M. Th. Hughes, A. Herbonnet, O. Thompson, B. Bisram, and Mario de Cuba.

Fls 20

The Fls 20 winners were E. M. O'Brien, J. Connor, M. Thomas, E. A. Bailey, Guillermo Giel, J. L. Lopez, A. Schwarz, Donald John, J. S. Williams, E. Carti, P. Hiemeke, J. J. R. Beujson, S. L. Smith, G. Giel, C. Haynes, A. Helliger, A. Lewis, M. I. Lake, E. F. Menglar, E. Lopez, S. A. Le Grand, Neville Da Breo, C. G. Wilson, and J. A. Hernandez.

Commendations

Commendations went to M. A. Davidson, M. de Kort, and A. Mohid.

FOR SALE: "Acrosomic" Baldwin Piano (small), drawing room set; desk and books; glass cabinet; hat rack; six wooden chairs. Apply Lagoville 127.

Honored by Lions

MOTHER OF THE YEAR: Mrs. Eva Maduro of Oranjestad was honored at the Lion's Club annual Mother's Night, May 14, when she was named Mother of the Year. Following her introduction as guest of honor and words of praise by Tom Pietersz, Mrs. Maduro was presented a gift by Carlos Juliao, left, Lion's Club president.

MAMA DI ANJA: Sra. Eva Maduro di Oranjestad a worde honrá na e anochi di Mama anual di Lions' Club, Mei 14, ora el a worde nambá como Mama di Anja. Despues di su introduccion como hisbitante di honor y palabranan di homenaje door di Tom Pietersz, Sra. Maduro a recibí un regalo for di Sr. Carlos Juliao, handa ruhez, Presidente di Lion's Club.

Accidente ta Pone Fin Na Viaje di Marinero Cu a Bishita Lago

Jim Furlong kende a drenta haf di Lago na luna di Maart hunto cu su companjero di Texas, Joe Pellich, ariba nan viaje for di Copenhagen, Denamarca, pa Texas, no por a completa henter e viaje den su barco di 35 pia, Festina. E tragedia a socede no mas cu 200 milla lenw for di Houston — punto final di e viaje durante cual nan a pasa rond di mitar mundo.

E accidente cu a causa Furlong di perde su pia drechi a socede den Intra-costal Canal cual ta sigui orilla di Gulf Coast di Estados Unidos for di Alabama te Texas, un distancia di mas of menos 700 milla. E jovennan di Texas mester a worde getouw door di e canal. Na cierto momento durante e viaje nan tabata marando un cabuya na un lancha di canal. Furlong su pia a pega den un conopí di e cabuya y el a worde lantá como 10 pia for di terra. Forza cu e cabuya a worde rancá a kibra e pia y a causa tal blesura na e parti mas abao di su pia cu esaki mester a worde amputá. Den un aeroplano el a worde transportá pa San Antonio Hospital.

Despues di e accidente, Pellich sol a continua e viaje door di e canal y a drenta cu Festina den haf di Houston. Den hospital, Furlong no tabata sinti su mes asina tanto infeliz pa motibo di e accidente. El a bisa cu e viaje aki tabata cubri e dos mehor anjanan di su vida.

Ora nan a sali for di Lago, Festina y su tripulacion na e experiencia mucho dificilidat te ora nan a yega Cuba. Banda di Cuba nan a pega contra un rif di coral pero a scapa e peligro aki door di baha for di bordo y saca nan barco.

Mucha Muher

(Continued from page 1)

tratamento. Dr. R. C. Carrell, jefe di Departamento Medico di Lago, y tambe un Rotario, a contacta un amigo y estudiante anterior den medicina, Dr. Hilger Jenkins. Dr. Jenkins, un chirurg sobresaliente den cirugía plastico na Woodlong Hospital, Chicago, a ofrece su servicionan gratis y a obtene tarifanan rebahá pa Reinita na hospital di Chicago.

Apoyo di Comunidad

E defecto penoso di e mucha muher y e ofrecio generoso di Dr. Jenkins a traha manera un impulso ariba Rotarianan. Nan a formula nan programa y cu hopi actividad nan tabata pasa rond collectando e Fls. 4000 cu, segun calculacion, tabata necesario. Tan pronto cu Rotarianan a anuncia nan intencion hendenan di Aruba a reuni generosamente, apoyando e proyecto. Contribucionnan a worde recibí, e suma requiri a worde collectá, y viaje di Reinita tabata asegurado.

Aruba Girl Sent To United States For Medical Aid

On June 14, a young Aruban girl flew to the United States on the wings of "kindness and generosity of all who knew her and rallied in support of her chance for a new start in life." The young lady, Reinita Croes of Santa Cruz, was on her way to Chicago where arrangements had been made to give her medical treatment that is hoped will transform a facial disfigurement caused by a harelip into the natural features of a 19-year-old girl.

Miss Croes was born with the harelip and for 19 years lived with little hope of having the defect corrected. Rev. Hoogewaard, minister of the Protestant Church, however, took the story of the girl's plight to the Rotary Club of Aruba. The club's members immediately set up a fund-raising campaign to send her to the United States for treatment. Dr. R. C. Carrell, head of the Lago Medical Department, and also a Rotarian, contacted a former fellow medical student, Dr. Hilger Jenkins. Dr. Jenkins, an outstanding plastic surgeon at Woodlong Hospital, Chicago, offered his services without charge and secured reduced rates for Reinita at the Chicago hospital.

Community Support

The girl's pitiful defect and Dr. Jenkins' generous offer acted as an impetus for members of Rotary. They set up their program and diligently went about raising the estimated Fls. 4000. No sooner had Rotary announced its intentions than the folks of Aruba joined generously in support of the project. Contributions were received, the amount needed was realized, and Reinita's trip to Chicago was assured.

Accompanying Reinita was Mrs. Elka Morris of Miami, Florida, sister of Mrs. E. De Veer and former resident of Aruba. Mrs. Morris came especially to Aruba to take the 19-year-old girl to Chicago. The medical treatment is expected to take about two months involving three operations.

FASTER & BETTER: The old Burton cracking process, perfected about the time of the First World War, took 24 hours or more to make less than 35 per cent of gasoline from a barrel of crude oil. Today, on a catalytic cracking unit, the vapors that are in contact with the finely divided catalyst for only 15 seconds are converted into much better gasoline, with yields up to 50 per cent from a barrel. And one catalytic unit will crack as much as did 500 Burton stills.

Asylo pa Bestia Establecí na Dakota door di AAPCA

Pa algun tempo awor Aruba tin su mes Asociacion pa Prevencion di Crueldad na Animalnan. Ta un asociacion cu ta dedica su mes na e trabao di duna trato humano na animalnan cu ta camna henter dia sin destino den cayanan di Aruba. Entre otro funcionnan, e Asociacion a organiza un servicio tambe pa asisti donjonan di bestia den cuidado di nan favoritonan. Pa por duna e servicionan aki mehor recientemente e Asociacion a anuncia apertura di un asylo di animal na Dakota.

E Asociacion a haya un cantidad di miembro y sostendor den un poco tempo. E principio tabata dificil mesos cu semper ta e caso den formacion di organizacionnan nobo. Sin embargo, miembronan di Directiva di e Asociacion a tene cantidad di reunion y a coopera diligentemente pa forma un lugar unda bestianan di caya por haya cuida.

Poco tabata conoci di e Asociacion te ora e anuncia a worde haci dia 3 di Mei cu e asylo tabata habri. Antes, publico tabata sabi masha poco tocante actividatnan di e Asociacion. Awor, sin embargo, mas y mas hende sabi di existencia di e asylo, y, maske e no ta mucho grandi, el a proba su necesidad durante e tempo cortico cu e ta existi.

Obheto di e Asociacion

Ningun bestia mola of weglisá den nos cayanan; ningun bestia mola indeseable ningun camina. En corto, ningun crueldad innecesario contra animalnan sin defensa.

E funcion humano di e Asociacion pa medio di e asylo ta hopi. Ora un donjo ta bai permanentemente for di Aruba; ora un donjo no tin tempo ni espacio pa su bestianan; of ora un parto nobo nace y e donjo no ta desea di tene tur e bestianan chikito, e Asociacion cu su asylo ta tuma nan over. Esakinan ta solamente algun di e hopi actividatnan di e Asociacion.

Ora un bestia ta mala y e donjo ta convenci cu e no por cura, el por hiba e bestia asylo. En corto, kende cu kier sali for di un bestia por hiba asylo. E Asociacion lo purba haya un solucion pa problema di cada hende. Si e ta un caso sin speranza, e animal lo worde salba di su sufrimento na un manera experto y humana. E asylo ta ofrece otro servicionan tambe na donjonan di bestia. Ta socede varios vez cu un donjo di cacho na kier haci e animal limpi regularmente, principalmente ora e bestia tin carpata. Arreglo nan pa e problema aki por worde haci. Donjonan cu kier laga haci nan cacho limpi por entrego na asylo ariba Diasabra y Diadomingo. Nan lo worde banjá, si ta necesario, y despues nan lo kita su carpata, trata nan cu desinfectante y despues hunta nan cu poeier contra insecto.

Costo

Costonan pa opera un asylo asina ta relativamente halto. Pesey e Asociacion a suplica esnan cu ta desea asistencia di e asylo pa contribui den e costonan di su operacion. E contribucionnan aki sin embargo, no ta mucho halto. Por ehemplo, pa mata un cacho grandi ta costa Fls. 1, pa henter un parto Fls. 1.50. Purificacion di un cacho ta socede na un prijs razonable. Tambe ta existi e intencion pa duna esnan cu kier haci uso di e servicionan aki regularmente un rebajo.

Organizacion di e asylo practicamente a caba fundonnan di e Asociacion. Pa halanza su fundonnan, e Asociacion mester di cooperacion di tur. E cooperacion aki por worde duná door di hira miembro of di un donacion ora cu bo haci uso di e asylo.

Sin embargo, e Asociacion a splica tambe cu ayuda lo worde duná semper no obstante cu contribucion financiero worde haci of no. E Asociacion tin como obheto cu "ningun hende lo bati en vano na nan porta tan tempo cu ta posible pa duna ayudo".

Sitio

Un caso di e bon obra cu e Asociacion ta haci a socede recientemente ora nan a tree un cacho malo na e asylo. Despues di un examenacion cuidadoso a resulta cu e animal tabatin un pia kibrá, un oreo mordi y un maldad di cuera terrible. Door di facilidadnan di asylo, e cacho a worde matá y aliviá di su sufrimento.

E asylo ta na Dakota. Pa yega na dje, sigui Fergusonstraat ora bo pasa stadion di deporte, prison y deposito di Mario Arends te na di promer cruzada di camina. Aki un borchí muerá "Asyl" ta indica direccion pa e lugar. Entre oranan di 4 te 5 p.m. semper tin un hende presente. Cambio pa otro oranan por worde haci pa medio di van Doren, telefon 1336, of G. Bosse, telefon 1686. Contribucion pa mantencion di e asylo por worde drigi na S. Heeringa, Verkeerstoren, Dakota, telefon 1564.

Schedule of Paydays

Semi-Monthly Payroll
July 1 - 15 Wednesday, July 23
Monthly Payroll
June 1 - 30 Wednesday, July 2

Equipo Olympico Antillano ta Gana Un Wega, Perde Dos

Equipo futbolistico di Antillas Holandes cu lo tuma parti na Olympiada a encontra competicion fuerte den su promer serie di weganan na Holanda. Encontrando un poco dificultad ariba e terreno di yerba di Olympisch Stadion na Amsterdam, cual ta hopi diferente for di e terrenonan cu representantenan di Aruba-Curaçao ta acostumá ariba, e equipo Antillano a perde promer dos weganan y despues a gana di tercer.

Den e wegá di apertura, miembronan di e equipo Antillano a liza un derrota di 3 — 1 contra equipo di Primera Clase di Amsterdam, Blauw-Wit ariba dia 19 di Juni. Wegá di e equipo Antillano a resulta den un poco desapuntacion, indudablemente debí na novedad di e cercanía y excitacion di e clase di competicion dilanti di nan. Mas importante cu perdida di e wegá tabata heridamento di keeper Hato. El a worde heridá den un lucha dilanti di goal y mester a worde reemplazá door di Hernandez. E herida, sinembargo, aparentemente no tabata asina grave como Oficina General di Prensa Holandes no a accentua naturaleza di e blesura.

Segundo Wegá

Segundo esfuerzo di e equipo contra oposicion Holandes tambe a termina den un derrota. El a perde 5 — 1 contra BVV den Bois-le-Duc Stadium. Wegá di e equipo Antillano tabata sobresaliente den promer parti di wegá. Calidad di representantenan di Aruba-Curaçao, sinembargo, a baha den segundo parti pa motibo di falta di "teamwork". BVV tabata domina den "centerfield", y esaki tabata e lugar unda e atakanan tabata worde formá sistematicamente.

E ala drechi di e equipo Antillano a logra pasa algun biaha, pero no a trece ningun cambio den e situacion. BVV tabata haci atake constante y fuerte ariba goal Antillano y tabatin un ventaha di 3 — 0 na fin di promer parti di e wegá.

Den segundo parti, Gomez y Coffie, hungando banda paden, a worde reemplazá door di Kripps y Juan Briezen. De Jong a reemplaza Conquet den centro. E reemplazonan claramente a fortifica atakanan Antillano y a forma un mehor halanza den centerfield. No obstante cu nan tabata hunga cu un score di 5 — 0 na favor di nan contrapartida, e Antillanonan no a perde speranza y a score nan unico goal ora Heyliger a bati un shot excelente. E wegá a tuma lugar den presencia di mas of menos 20,000 mirones.

E equipo Antillano a score su promer victoria ariba Continente cu un

Animal Hostel

(Continued from page 3)

Fls. 150. The cleaning of a dog is done at a reasonable price. It is also the intention of the Association to grant a reduction for those who wish to avail themselves of such services regularly.

The organization of the hostel has practically exhausted the funds of the Association. In order to balance its funds, the Association needs the cooperation of everyone. Such cooperation can be given in the form of membership or a donation whenever use is made of the hostel.

The Association also points out, however, that requested help will always be rendered regardless of whether or not a financial contribution can be made. The Association has made it plain that "no one will ever knock at the door of our hostel in vain as long as it is possible for us to render help."

Location

One instance of the good the Association does occurred recently when a sick dog was brought to the hostel. After a thorough examination it was found that the animal had a broken leg, a torn ear and an impossible case of scurvy. Through the facilities of the hostel, the dog was destroyed and saved from further suffering.

The hostel is located at Dakota. In order to reach it follow Fergusonstraat past the sports stadium, the House of Detention and Arends' warehouse until the first intersection. Here a sign marked "Asyl" (hostel) indicates the direction to the hostel. Between the hours of 4 and 5 p.m., someone is always present. Appointments for other hours can be made through van Doren, phone 1336, or G. Bosse, phone 1686. Contributions for the hostel's support may be sent to S. Heeringa, Traffic Tower, Dakota, phone 1564.

resultado pretá di 1 — 0 contra Feijenoord ariba dia 25 di Juni. Duran- te henter e wegá tabata evidente cu

e hungadornan tabata acostumando cu nan cercanía nobo y tabata cuminda hunga cu confianza y no cu e falta di agresividad cu tabata caracteriza nan dos promer encuentronan.

Recepcion pa e Equipo

Dia 18 di Juni, poco despues cu e hungadornan Olympico a yega Holanda, un recepcion a worde duná na nan honor door di Koninklijke Nederlandse Voetbal Bond den clubhuis di e organizacion. Cola Debrot, representante general di Antillas Holandes na Holanda tabata presente na e recepcion.

Diamars 17 di Juni, Trainer Antoine Maduro a pone su equipo di Aruba-Curaçao haci un ora y mei di ejercicio fisico. E terreno di yerba den Olympisch Stadion na Amsterdam a duna e hungadornan algun dificultad hasta pa practica nan ejercicios di rutina.

E hungadornan a recibi un sorpresa agradable ora nan a worde notificá door di Comité di Torneo Futbolistico di Olympiada cu, como resultado di loteria di e weganan, nan lo no hunga na Helsinki promer cu Diahuebes, 19 di Juli, of Diasabra, 21 di Juli. Esaki lo duna nan mas of menos un siman na Helsinki, pa aclamatisa promer cu nan hunga nan promer encuentro Olympico. Promer cu Helsinki, e equipo lo hunga na Boulogne-Sur-Mer, Francia, contra e equipo Olympico Frances, y despues lo bai Kopenhagen, Denamarka, pa hunga un wegá aya dia 7 di Juli.

(Aruba Esso News lo duna reportaje completo di weganan Olympico involuendo equipo Antillano huntu cu retratoman tan pronto cu e material ta disponibel.)

Accident Ends Journey Of Texas Sailor Who Visited Lago

Jim Furlong, who sailed into Lago Harbor in March with fellow Texan Joe Pelich, on their way to Texas from Copenhagen, Denmark, failed to complete the entire trip in his 35-foot sloop, Festina. Tragedy struck not more than 200 miles from Houston — the end of the trip that took him half way around the world.

The accident that caused Furlong to lose his right foot happened in the Intracoastal Canal which skirts the United States Gulf Coast from Alabama to Texas for more than 700 miles. The Texans had to be towed through the canal. At one point along the way, they were in the process of securing a towline to a canal barge. Furlong caught his leg in the towline and was tossed 10 feet in the air as a bight in the line snapped around the leg. The tightness of the line broke the leg and caused such injury to the lower part that his foot had to be amputated. He was flown to a San Antonio hospital.

Following the accident, Pelich continued through the canal and brought the Festina into Houston alone. In his hospital room, Furlong wasn't unhappy about the accident. He said the trip covered the best two years of his life.

When they left Lago, the Festina and its crew experienced little trouble until they reached Cuba. Off Cuba, they ramm'd a coral reef, but successfully hurdled it by going overboard to boost their boat along.

DIEZ ANJA PASA

Algo cu ta socede rara vez a pasa durante Juni 1942, ora un yiu á bira eligible pa un boton di servicio promer cu su tata. Combinacionnan di tata y yiu no ta stranjo na Lago, pero tabata remarcable ora e yiu, den e caso aki, Rosimbro Croes, a recibi un boton di diez anja di servicio promer cu su tata, Vicente Croes. Tirando un vista atras den Aruba Esso News di 1942 nos a descubri cu Rosimbro Croes a worde empleá promer como un office boy den Accounting Department na Mei 1930. Su servicio a worde recompensá cu un boton di servicio na 1940. Vicente a cuminda su servicio cu Compania na November 1931, y a recibi su boton di diez anja di servicio na Mei 1942. E tempo ey Vicente tabata traha den Watching Service.

Antillean Olympic Team Wins One Game, Loses Two

The Netherlands Antilles Olympic football team ran into some stiff competition in its first series of games in Holland. Experiencing a bit of difficulty on the grass field of the Amsterdam Olympic Stadium, quite different than the fields the Aruba-Curaçao representatives are accustomed to, the Antillean team lost its first two games and then won its third encounter.

In their opening game, members of the Antilles team were outclassed 3—1 by the Amsterdam first class team, Blauw-Wit on June 19. The play of the Antillean team was slightly disappointing undoubtedly due to the newness of the surroundings and the excitement of the class of competition ahead of it. More important than the loss of the game was the injury to goal keeper Hato. He was injured in a scramble in front of the goal and had to be replaced by Fernandes. The injury however, evidently was minor since the General Netherlands Press didn't stress the nature of the injury.

Second Game

The team's second venture against Dutch opposition also ended in defeat. It lost to BVV 5—1 in the Bois-le-Duc Stadium. The play of the Antillean team picked up greatly in the first half. The quality of the Aruba-Curaçao representatives fell off in the second half, however, with the lack of teamwork. BVV had full control of the centerfield, and that was the place where the attacks were systematically built up.

The Antillean team's right wing succeeded a few times in breaking through, but this did not change the situation. BVV exerted steady and heavy pressure on the Antillean goal and led 3—0 at the end of the first half.

In the second half, inside-playing men Gomez and Coffie were replaced by Kripps and Juan Briezen. De Jong replaced Conquet at the center position. The replacements noticeably increased the Antillean attack and better balance was attained in the centerfield. In spite of that fact they were trailing 5—0, the local players never gave up hope and came through with their lone goal when Heiliger feinted the BVV goalie with an excellent shot. The game was played before a crowd of 20,000.

The Antillean team scored its first victory on the Continent with a close 1—0 win over Feijenoord on June 25. It was evident throughout the game that the players were becoming accustomed to their new surroundings

Saved by Safety Hat

HEAD PROTECTION: Edward G. Jagershochi of the Receiving and Shipping Department is thankful he had his safety hat on when he accidentally hit a drain valve. A process helper A, he was working on the Esso Raleigh when he came up under the valve. The force of the strike punctured his safety hat, but didn't injure his head. A fellow employee is pictured in the approximate position that Mr. Jagershochi struck the valve. The hole is circled showing the extreme importance of always wearing your safety hat.

PROTECCION DI CABEZ: Edward G. Jagershochi di Receiving & Shipping Department ta contento cu el tabatin su sombre di seguridad histi ora accidentalmente el a dal un "drain valve". Siendo un process helper A, el tabata traha na bordo di Esso Raleigh ora el a lamta for di hao e valve. Forza di e golpe a causa un buraco den su sombre di seguridad, pero el no a herida su cahez. Un otro empleado ta munstrá den e posicion aproximado cu Sr. Jagershochi a dal e valve. E buraco ta mareá den un circulo munstrando importancia di histi ho sombre di seguridad na tur tempo.

and began playing with confidence rather than the lack of aggressiveness which had spotted their previous two encounters.

Team Reception

On June 18, shortly after the Olympic players arrived in Holland, they were given a reception by the Royal Netherlands Football Bond at the organization's clubhouse. Cola Debrot, representative of the Netherlands Antilles in Holland was present at the reception.

Tuesday, June 17, Trainer Antoine Maduro put his Aruba-Curaçao team through an hour and a half of physical exercises. The grass field of the Amsterdam Olympic Stadium gave the players some difficulty even

in going through their routine exercises. The grass covered surface is something far different than the surface of fields in Aruba or Curaçao.

The players received a pleasant surprise when they were notified by the Olympic Football Tournament Committee that, as a result of the team drawing, they were not scheduled to play in Helsinki until Thursday, July, 19, or Saturday, July 21. This will give them about a week in Helsinki to get acclimatized before their first Olympic venture. Before Helsinki, the team will play in Boulogne-Sur-Mer, France, against the French Olympic team, and then will go on to Copenhagen, Denmark, for a game there on July 7.

THREE WEDDINGS: Pedro Semeleer and Martines Leo of the Telephone Exchange, above, congratulate each other on their marriages. Mr. Semeleer was married to Miss Theresa Kelly at St. Ann's Church, May 29. Mr. Leo was married to Miss Angelica Croes at the Sacred Heart Church, May 15. Fellow employees gave Mr. Semeleer and Mr. Leo a table clock and silver set, respectively. The third Lagoite to marry was Ceril Vrolijk, below, of LOF. He married Miss Maria van der Linden at the Sacred Heart Church, May 29. W. T. Pandt presents Mr. Vrolijk a check.

NEW YORK BOUND: Two men recently left the employ of the Company to take up residence in New York City. George S. Hope of M & Zone Office, above, left for the big city to study medicine after seven year's service. The son of Joseph A. Hope of M & C Garage, Mr. Hope was presented a pocket watch from members of the Zone 1 team. Vincent Scott of M & C Storehouse, below, was presented a leather suitcase and shaving kit by fellow workers for his trip to New York. Making the presentation is W. L. Hart, in behalf of fellow employees.

KID'S KORNER

Fish in the Forest

Once a man, while working in his fields, found a treasure. He carried it to his home and said to his wife, "See. Heaven has been good to us. We have been sent a fortune. Where shall we hide it?"

"Let us bury it under the floor," said the wife. So they buried the treasure under the floor of their cottage.

Some after, the wife left the house to get some water. Then the man began to think that his wife was a terrible gossip and that by the next day everyone in the village would know about their good fortune. So he took the treasure from under the floor and hid it in the barn under a pile of grain.

When the wife returned, he said to her very seriously, "Tomorrow we will go to the forest to look for fish. I have heard that there is plenty of fish there this time of the year."

"What?" exclaimed his wife, thinking she had not heard him correctly. "Did you say there are fish in the forest?"

"Certainly," answered her husband, "and tomorrow you will see plenty of them there."

In the Forest

Very early the next morning he went to the forest, taking with him a basket in which he had hidden some fish and some sweet cakes which he had bought at the grocer's. He put the fish and sweet cakes in different parts of the forest. Then he caught a hare and killed it and hooked it to a fishing line and threw it into the stream.

After breakfast his wife went with him to the forest. They had scarcely entered the wood when she began finding fish. "Look at this," she exclaimed in surprise, as she picked up a perch, then a pike from the ground and put them in her basket.

A little later, she came upon a pear tree from which hung many sweet cakes. "Look," she cried, "a pear tree with sweet cakes! Did you ever see such a thing?"

"That is not unusual," answered her husband. "It has rained sweet cakes and some were left hanging on the pear tree. People have picked up the others."

On their way home they passed the stream where he had left his fishing line. "Wait a minute," said he. "Early this morning I set my fish line, and I want to see if I have

caught anything." Whereupon he pulled in his line and there was a hare hooked to it.

"How extraordinary!" exclaimed his wife, more astonished than ever. "I didn't know that hares lived in the water."

"Of course they do, the same as rats," replied her husband.

When they reached home, the wife prepared a good dinner with all the things they had found in the forest.

The Castle

But the next day, the man knew from some conversation he heard in the village that other people shared their secret about the treasure, and sure enough a message was sent summoning him to the castle. His wife went along with him.

"I hear that you have found a treasure," said the lord. "Is it true?"

"No, it is not true," answered the man.

"But your wife has told me everything," said the lord.

"Don't pay any attention to her," said the husband. "She doesn't know what she is talking about."

"It is true!" cried the wife. "He found a treasure and buried it under our cottage floor."

"When did he find it?" asked the lord.

"The day before we found fish in the forest."

"What's that you say?" asked the lord.

"The day before we picked sweet cakes off the pear tree," shouted the wife. "And on the way home he caught a big hare in the stream."

Indeed, the lord thought the woman quite mad. "Such an idiot!" he exclaimed. Nevertheless, he had a search made under the cottage floor, but nothing was found.

So the clever husband managed to keep his treasure undisturbed.

International Baseball At Wilhelmina Stadium

On July 12 and 13, the Estado Falcon All Stars and the Aruba All Stars will meet in a three-game series with an international touch. The visiting team is comprised of Venezuelan All Stars. The games will be played at Wilhelmina Stadium.

The first game of the series will take place Saturday afternoon, July 12, at 2:30 p.m. The following day, the two teams will meet at 10:15 a.m. and 2:30 p.m.

What Do They Keep in Their Pockets?

In a side pocket, lots of things,
Dad carries quarters, nickels and.....
A studious girl, in between classes,
Stores in a pocket her reading.....
In the pocket of baby's nurse
There's a handkerchief and a tiny.....
Brother carries a lot of things:
A knife, a top and several.....
But of all contents of pockets, maybe
The strangest of all is
The kangaroo's.....

Word Square with Rhymes

- Bobby shouts a friendly hello,
And back from the wood comes
a hollow.....
- Cawing a protest, a bird flies low.
See his black feathers? He's
known as the.....

Word square with rhymes: echo, crow, howl, oars.
Hidden fruits: melon, peach, lemon, pear, cherry, apple, orange.

New Playground Opens

EXCITED BEGINNING: "Me first," yelled a hundred kids as the gate to the Rotary playground at Dakota swung open for the first time June 21.

PRINCIPIO EXCITANTE: "Ami promer," cientos di mucha a grita mientras porta di Speeltuin di Rotary na Dakota a worde bahri pa di promer vez dia 21 di Juni.

Dakota Playground Opened by Rotary

A project on which the Aruba Rotary Club has worked long and hard passed an important stage June 21 with the dedication of the Dakota Speelplaats, a full-block playground in the northeast section of Oranjestad. The club hopes to add additional equipment by the end of the year, but the swings, teeter-totters, and other pieces now installed make a good start on a satisfactory play-place, together with a half-size football field for the older boys.

In a simple ceremony, Rotary President C. H. G. Eman presented the playground, and J. A. F. Spit, secretary of the Rehabilitation & Child Protection Association, accepted it on behalf of the community. Mr. Spit expressed his faith that such aids to the spare time problem of children can be a start toward reducing juvenile delinquency. J. Margaretha, chairman of a neighborhood committee that will supervise the playground, spoke highly of the venture and at the same time laid down some rules for conduct so all who use it can get the most enjoyment from it.

After the talks and the unveiling of a bronze plaque by Dr. R. C. Carrell of Lago, over a hundred children scrambled into the playground and lost no time putting it to use. Several tubs of soft drinks made them glad they had stayed through the speeches that grown-ups are always making.

Speelplaats di Dakota Habri Door di Rotary

Un proyecto ariba cual Aruba Rotary Club a traha largo y duro a pasa un estadio importante dia 21 di Juni cu dedicacion di Dakota Speelplaats, un patio di recreacion bon aregla den seccion Noordost di Oranjestad. E club ta spera di agrega accesorio adicional banda di fin di anja, pero e hamacanan, wipnan y otro piezanan cu ta instalá awor ta haci un principio ariba un lugar di hunga satisfactorio, hunto cu un terreno di futbol di mitar grandura pa e mucha hombernan mas bieuu.

Durante un ceremonia cortico, Presidente di Rotary C. H. G. Eman a presenta e speelplaats, y J. A. F. Spit, secretario di Asociacion di Rehabilitacion & Proteccion di Juventud a accepte'le na nomber di comunidad. Sr. Spit a expresa su speranza cu tal contribucionnan na e problema di tempo liber di muchanan por ta un principio den reduccion di criminalidad entre juventud. J. Margaretha, presidente di e "speeltuin commissie" cu lo tira vista ariba e lugar, a aplaudi e experimento altamente y na mes tempo a establece algun regla di conducta asina cu tur cu ta usale lo por haya mas placer di dje.

Despues di e discursonan y desvelacion di e plachi di brons cu a worde haci door di Dr. R. C. Carrell di Lago, mas cu cien mucha a corre drenta e patio y no a perde tempo pa pone'le na uso.
